

Why we should be worried as Americans.

17,000+ defense firms lost since 2019

Only 4% of the \$877B defense budget reaches new tech

Average 9 years to onboard new technology into the Pentagon

The timelines don't match.

We expect war or deterrence with China within 3 years. It takes more than 3 years to get new tech into the Pentagon.

Best Pentagon of our lifetimes.

6–7x increase in available defense spending. Shift from legacy prime-driven to defense tech portfolio-driven.
